

Dino Chutes, Inc. Dino Pad

Thank you for purchasing the Dino Chutes, Inc.

Dino Pad. This product is designed to provide a clean surface for your launch equipment when launching from a field. This is especially helpful in muddy conditions.

The corners of the pad can be secured to the ground with the included nails. Just be sure that there isn't anything underneath the soil that should not be penetrated by nails.

When you are finished using then pad then be sure to remove the nails by pulling them out by themselves rather than pulling up on the pad to yank them out of the ground.

Rocketry activities contain some risk. You assume all liability as we cannot control the eventual use of this product. Please return to the place of purchase for refund if you are not willing to accept all liability for your use of this product.
